

IT WAS HOT ENOUGH

Yesterday Captured the Calorific
Banner of the Season

BY A RECORD OF 91 DEGREES

At 10 o'clock this morning the thermometer registered 90 degrees.
Everybody Oppressed by Heat.

At 10 o'clock yesterday afternoon the mercury registered 91 degrees. At 10 o'clock last night it stood at 84, and at 1 o'clock this morning it registered 90. The past twenty-four hours have been the hottest and most oppressive of the season. The intense heat of yesterday was labeled "nightly warmer" in the weather department's predictions. In the early morning there was a heavy shower. Then the clouds lowered and a sultry, stifling, overwhelming heat sifted through the mist and made life unendurable a day of misery. There was no way of escaping the oppressive warmth, either. Thousands fled to beaches last night in the hope of finding a cool refreshing, breathing spot, but it was not there. The air that rushed through the swiftly moving cars seemed to be blown from ovens. It was sultry on the street, stifling in the hotels and houses, and smothering everywhere. Everybody wore the coolest and thinnest clothes possible, but no clothes are thin enough on such a day. Sleep last night was almost an impossibility, and even in the early hours this morning persons could be seen sitting in the windows of their chambers fanning themselves and waiting in vain for their rooms to become cool enough to make sleep possible. The only person that appreciated yesterday is the idiot who says it is not enough. He was exasperated happy.

Our Meteorology and Government.
Western cities affect a pleasant air of benevolence when a pleasant air of advertising booklet issued by Grand Rapids, Michigan, which is so incisive and quick as the business methods of the great manufacturing of furniture, carpet sweeper and refrigerators. The statistics briefly sketched on the natty printed pages are very suggestive of prosperity. Thus, with a population of 30,000 in the city and suburbs, the products of the year are valued at \$32,000,000, more than forty passenger and thirty-five freight trains run to and from the city daily. Mr. Blair pronounced Grand Rapids "the biggest city of its size in the country," and this complimentary phrase is now used to advertise the enterprise and greatness—Philadelphia Public Ledger, July 11.

Wheat and Hay Harvest.
Conrad Cleaver of Middleville, Ottawa county, reports that wheat and hay harvesting is in full blast in that section, and the general outlook now is that wheat will yield a much better crop per acre than the most sanguine anticipated two weeks ago, being much above the average. It stands up straight and the warm weather has been favorable for early ripening. Corn is looking fine and bids fair for a large yield, while oats look well and are fast maturing. Hay is the heaviest crop ever known in that section, so heavy in fact that it is difficult to cut it without the mower becoming swamped, being unable to proceed until after cleared of the heavy grass.

Death of J. W. Thomson.
Jeremiah W. Thomson, an old and well-known resident of this city, died at his residence, No. 315 Gold street, Wednesday morning. Mr. Thomson was for years engineer at the Grand Rapids State company's factory, but for the past three years has been confined to the home by the disease which carried him away. He was a prominent member of the Masons, A. O. U. W., and Custer post G. A. R. The funeral will be held Sunday July 16, at No. 315 Gold street, under the auspices of the Masonic fraternity.

Otto and Anna Jesick, No. 135 North Division street, measles.

Signing \$704 Bonds.
Auditor F. A. Gorham of the G. R. & I. road devoted the entire day yesterday to signing the new 4 per cent scrip bonds. There are 3704 of them, and by the time Mr. Gorham had written his name 3700 times he began to yearn for a substitute. Each bond must be signed by W. R. Shelby, the treasurer, and by F. A. Gorham, the auditor of the road. The face value of each bond is \$400, making the face value of the entire issue nearly \$1,500,000.

Lawn Party for Nurses.
The nurses at the U. S. A. hospital gave a lawn party last evening in honor of Miss Edith Grigg and Miss Grace Deely, who have just completed the course in the training school. The tables were arranged in the lawn in front of the nurses' home. A large number of the friends of the graduates were present, including several members of the staff. Light refreshments were served.

Lady Macabees Arriving.
Yesterday was the first anniversary of the Valley City hive. No. 194, L. O. T. M., and the ladies celebrated the occasion by inviting all the lady bees of the city to partake of ice cream and cake with them. The afternoon was pleasantly spent with speech making and music. Mrs. M. A. Ally, lady commander of the hive, was presented with a fine silver tea set appropriately engraved.

THAT MAY CHOP.

Alderman Tumbout Explains About the Removal.

Alderman Tumbout, chairman of the committee on parks, says the reported sale of a "hay crop" from John Ball park and Leonard park does Mr. Kennon, the superintendent, a great injustice. "Whoever told your reporter," said he, "that hay or grass has been sold and the money not turned in to the city treasurer stated an untruth. The best of the growing in the parks are now cutting and making into hay for the animals to feed on next winter. I believe we shall have plenty for them without buying. A small portion of grass that was barely good enough for hay was sold for \$3, and here's the city treasurer's receipt for it. In other portions of the parks men have been allowed to have the grass for the cutting. We considered this wise economy for if the work could not have been done for nothing the city would have been obliged to pay \$1.75 per day to get the same work done, and the hay made there would certainly not more than one-half paid the men's wages. "No, there is nothing crooked with the park superintendent," said the alderman, "the difficulty is he is a man who is too honest and hard-working for some of these fellows who want to get a living off the city without earning it, and they want him deposed. Mr. Kennon thinks every man on the parks should earn the money paid him, and he tries to make them do it. That is the only reason some want to get him out."

APPOINTED SPECIAL AGENT.

John D. Galehouse to Represent the Pacific Mutual of Mackinaw.

John D. Galehouse, who has been with Clark & Bowen, general agents for the Pacific Mutual Life and Accident Insurance company for the past two years, has been appointed by these gentlemen as special agent, with headquarters at Mackinaw City. He will have charge of all railroad work on the G. R. & I., the Mackinac division of the Michigan Central and the Duluth, South Shore & Atlantic roads. No better selection could have been made, and in appointing Mr. Galehouse to this position Clark & Bowen used excellent judgment, as no one else in the state, who has found him always honest, energetic and capable. His many friends in this city will wish him success in his new field. There can be little doubt of his success, as he represents one of the very best companies doing business in the state, which fact, together with his happy way of making friends, will hustle his competition in business.

Last fall I was taken with a kind of summer complaint, accompanied with a wonderful diarrhea. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhoea Remedy, which we did, and that cured us right away. I think much of it, as it did for me what it was recommended to do. John Hertzler, Bethel, Berks Co., Pa. 25 and 50 cent bottles for sale by F. J. Wursburg druggist, 56 Monroe.

TEETH!

Beautiful teeth are a luxury few possess.
We have heard people say they would give
anything they had for such beautiful teeth as
so many had.

The true secret is not so much in the perfect-
ness of the teeth as in the snow-like whiteness
and the brilliant polish.

All teeth are capable of this with proper care.
Waxes and pastes should be avoided as they
are injurious as are also many of the powders.
A properly prepared powder, however, is the
only right and perfect thing to cleanse and
preserve the teeth. This we have succeeded in pro-
ducing after much labor and expense. The
formula is by one of the most noted dentists
of this country and is absolutely perfect.

SAPODILLA—Is the name we have adopted
for it, and we are too extreme green and
manufacturers. We guarantee Sapodilla to be
the only perfect tooth powder on the market.
That it will prevent decay and render the teeth
more beautiful with less trouble than any other
preparation to be had.
